WORKOUT 05

CR Data Bootcamp
Final Checklist

At this point you should have:

☐ Reduced your Online Tracking
☐ Set Up Your Smart Speaker for Privacy
☐ Identified your State’s Privacy Legislation
☐ Disabled Ad ID Tracking on Mobile Device
☐ Signed our petition to the FTC to pass strong privacy rules
☐ Signed up for Data Action Day

For this week, take some time to refresh and reflect on all you’ve learned over the last three months. If you missed a workout, take the time to do it now.

Why is this important?

• The CR Data Bootcamp was designed to shed light on critical aspects of data privacy that are the cornerstones of good data hygiene and privacy legislation.

• While there is no single activity that will address everything about the weaponization of our data, these small steps can help us reduce our digital footprint and reclaim our digital privacy.
